

Cosmos Physical Therapy & Wellness

March 30, 2023

Fresh out of my Physical Therapy Graduate Program and with limited clinical experience, the last thing on my mind was starting my own clinical practice. The amount of experience, mentorship, and knowledge required to even think about doing so seemed out of reach. To find these traits in a singular system, CAVU provided the opportunities I needed to get started.

CAVU goes beyond a simple business relationship. The process of learning, understanding, and implementing my new business is supported by, not just me, but by a growing team of real people that have the same values and goals that I have for myself. To be able to put a name to a face in this fast-paced environment is rare. From the billing, to IT support, to business-related questions/concerns, I felt supported, comfortable, and confident.

All the support I've received thus far, and the support I am guaranteed to receive in the future, has made the foundations of my practice strong, and has given me the confidence to push forward and grow. To see another business like CAVU with the same values and goals as mine really solidified my confidence, not only in myself, but in the ongoing relationship between us.

The concept of Cosmos Physical Therapy and Wellness was geared towards the endless potential for growth and improvement. And I see this in CAVU and the many hardworking people behind the name.

Trenton Nakama, PT, DPT.
Clinical Director
